CUSTOMIZABLE TRAINING PROGRAMS THAT SECURE BULK PURCHASE RATES!

Training as a Service (TaaS) is the first program of its kind for the electronic security and life safety industry. This customizable training solution allows employers to fast-track new hires and current employees with in-house training.

Leverage this buildable curriculum covering technical training, safety skills and topical industry trends. TaaS provides everything you need in one place, from communication and safety skills training to industry knowledge that meets state licensing requirements — and all levels in between.

All courses are offered online, with reporting features that allow supervisors to track the progress of employees.

BENEFITS OF TAAS

Attract and retain employees

Reporting that helps you track students' progress

Customizable to your company's unique needs

Recommended course schedule and reminders

Convenient - all courses are offered online

Cost effective
